*Summit of China Green Companies 2009*

It is a pleasure to send my greetings to all those gathered for this fantastic conference. California is proud to join you in celebrating Earth Day.

One of the most vital responsibilities that we have is preserving our environment, and I applaud your efforts to do just this. By encouraging businesses and organizations to implement green techniques, we can ensure that generations to come will be able to enjoy our planet. Thank you for your leadership on such an important issue.

California and China are great partners, and I know our work in this field will strengthen our friendship. During my visits to China, I have seen first-hand the ingenuity of your people, and together we can demonstrate how green technology can protect our natural resources and pump up our economies.

My thanks go to China Entrepreneur Club and everyone who made this event possible. I have no doubt that your summit will be enriching to those in attendance, and I extend my best wishes for a memorable day and every continued success.

Sincerely,
